

VIT[®]
Vellore Institute of Technology
(Deemed to be University under section 3 of UGC Act, 1956)

Name	- KAVYA JAIN
Register No.	- 23BIT0006
Course Title	- Software Engineering Lab
Course Code	- BITE307P
Slot	- L45+L46
Date	- 19 February 2025

LEGAL MANAGEMENT SYSTEM MANUAL TESTING:

1. View Cases

Project Name:		Legal Management System							
Module Name:		View Cases							
Reference Document:		SRS Document							
Created by:		Kavya Jain							
Date of creation:		12/02/25							
Date of review:		19/02/25							

TEST CASE ID	TEST SCENARIO	TEST CASE	PRE-CONDITION	TEST STEPS	TEST DATA	EXPECTED RESULT	POST CONDITION	ACTUAL RESULT	STATUS (PASS/FAIL)
TC_VIEWCASE_01	Verify case details viewing functionality	Check if user can view case details	1. User is logged in 2.User has an assigned case	1. Navigate to "My Cases"	caseId=12345	Case details page should display all relevant information (case number, status, involved parties, etc.)	Case details displayed	As Expected	PASS
				2.Select an assigned case					
				3.Click "View Details" button					
TC_VIEWCASE_02	Verify error message for invalid case ID	Check if system handles invalid case selection	1. User is logged in	1.Navigate to "My Cases"	caseId=00000	System should display an error message like "Case not found"	Error message displayed	As Expected	PASS
				Enter an invalid case ID					
				Click "View Details"					
TC_VIEWCASE_03	Verify access to closed cases	Check if user can view closed case details	1. User is logged in 2.User has a closed case assigned	1. Navigate to "My Cases"	caseId=67890	System should allow viewing but mark it as "Closed"	Closed case details shown	As Expected	PASS
				Click "View Details"					
TC_VIEWCASE_04	Verify access restriction for unauthorized cases	Check if system prevents unauthorized access	1. User is logged in. 2. User has no access to the case	1. Navigate to "My Cases"	caseId=99999	System should prevent access and show "No access to this case"	Error message displayed	Case details displayed	FAIL
				Enter an unassigned case ID					
				Click "View Details"					

2. File Cases:

Project Name:		Legal Management System							
Module Name:		FILE CASE							
Reference Document:		SRS Document							
Created by:		Kavya Jain							
Date of creation:		12/02/25							
Date of review:		19/02/25							

TEST CASE ID	TEST SCENARIO	TEST CASE	PRE-CONDITION	TEST STEPS	TEST DATA	EXPECTED RESULT	POST CONDITION	ACTUAL RESULT	STATUS (PASS/FAIL)
TC_FILECASE_01	Verify case filing functionality	Check if user can file a new case	1. 1. User is logged in 2.User has access to file a case	Navigate to "File a Case"	caseTitle="Dispute" caseType="Civil"	Case should be filed successfully with a confirmation message	Case filed successfully	Case successfully registered	PASS
				Enter required case details					
				Click "Submit"					
TC_FILECASE_02	Verify error handling for missing details	Check if system handles missing fields	1. 1. User is logged in 2.User has access to file a case	Navigate to "File a Case"	caseTitle="" caseType=""	System should display an error message "Required fields missing"	Error message displayed	Required fields missing	PASS
				Leave required fields empty					
				Click "Submit"					
TC_FILECASE_03	Verify file upload functionality	Check if user can attach files to the case	1. 1. User is logged in 2.User has access to file a case	Navigate to "File a Case"	fileName="evidence.pdf"	System should allow file upload and associate it with the case	File uploaded successfully	As Expected	PASS
				Enter required details					
				Upload a document					
TC_FILECASE_04	Verify duplicate case prevention	Check if system prevents duplicate cases	1. 1. User is logged in 2.Case with the same details already exists	Navigate to "File a Case"	caseTitle="Dispute" caseType="Civil"	System should prevent duplicate case filing and display an error	Error message displayed	Case already exists	PASS
				Enter existing case details					
				Click "Submit"					

3.Update Case:

Project Name:		Legal Management System							
Module Name:		Update Case							
Reference Document:		SRS Document							
Created by:		Kavya Jain							
Date of creation:		12/02/25							
Date of review:		19/02/25							
TEST CASE ID	TEST SCENARIO	TEST CASE	PRE-CONDITION	TEST STEPS	TEST DATA	EXPECTED RESULT	POST CONDITION	ACTUAL RESULT	STATUS (PASS/FAIL)
TC_UPDATECASE_01	Verify case update functionality	Check if user can update case details	1. User is logged in 2. Case exists in the system	1. Navigate to "My Cases" Select an existing case Edit details and click "Update"	caseId=12345 newStatus="In Progress"	Case should be updated successfully with confirmation	Case updated successfully	Case details updated and reflected in the system	PASS
TC_UPDATECASE_02	Verify error handling for missing details	Check if system handles missing fields	1. User is logged in 2. Case exists in the system	1. Navigate to "My Cases" Select a case Leave required fields empty	caseId=12345 newStatus=""	System should display an error message "Required fields missing"	Error message displayed	error message "Required fields missing" displayed	PASS
TC_UPDATECASE_03	Verify access restriction	Check if unauthorized user can update case	1. User is logged in 2. Case exists but user does not have edit permissions	1. Navigate to "My Cases" Select a case Attempt to edit details	caseId=67890 newStatus="Closed"	System should prevent unauthorized update and display an error	Error message displayed	Unexpected behavior: Case updated without permission	FAIL
TC_UPDATECASE_04	Verify case history tracking	Check if system logs case updates	1. User is logged in. 2. Case exists in the system	1. Navigate to "My Cases" Select a case Edit details and click "Update"	caseId=12345 newStatus="Resolved"	System should log the update with timestamps C	Case history updated	Case update logged with timestamp and user details	PASS
